Academies offer professional tuition in a range of sports, leisure pursuits, creative activities and academic subjects and are designed to increase students’ skills, technique and knowledge.

Academies, which are optional, enable students to customise their course and provide the opportunity to carry on learning outside the classroom in small, supervised groups.

Academies can bring many benefits: some stimulate students’ creativity, others expand their capacity for reflection and others help students to develop their critical thinking skills. Some raise students’ fitness levels and ability, while others help students to improve their self-confidence by challenging them to step outside of their comfort zone.

Every academy, whether it be a sport, creative activity, leisure pursuit or academic subject will help students to develop their communication skills, confidence in speaking and fluency.

Academies are available for all levels: Beginner, Elementary, Intermediate and Advanced. Beginners will start with the basics while advanced students will perfect their technique and skills.

Some academies offer a certified award or internationally recognised qualification upon completion.
